Our Story

“
50 Years of Growth and
Operational Excellence

What we do

Engineering

- 1,900 (UAE 700, India 1200) Peak engineering manpower
- 4 Operating centers (NMDC Energy, NEL, ANEWA, PRINCIPIA)
- FEED and detail engineering capabilities
- Comprehensive UAE graduate development program

Procurement

- 300+ highly qualified procurement professionals, working centrally out of Abu Dhabi
- Supported globally by its offices (Europe, India & China) and affiliates of expeditors and inspectors, procuring material and equipment.

Construction

- 1.82M SQM Musaffah Yard – Largest Fabrication yard in MENA
- 4 Construction Yards:
 - Musaffah Main Yard
 - ICAD-4 Yard
 - ICAD-2 Yard
 - KSA (RAK)
- 1.6 Million man-hours per month on an avg.
- 1360 Structures loaded out

Offshore

- Assets book value of more than AED 2.5 Billion, including 21 Barges / Vessels owned
- Installation of jackets, topsides and subsea structures / facilities
- Heavy weight topsides installation, pipe-laying and all subsea intervention works
- Pipelines Pre-commissioning works
- Renewables – Installation of wind farm monopiles in Taiwan

Onshore

- Five ongoing onshore projects with a value of AED 25.1 Bn
- Including projects for Estidama, Hail & Ghasha and Ruwais LNG mega project

NMDC Energy
A Partner of Choice

Since its establishment in 1973, NMDC Energy has played a pivotal role in the economic success of the UAE. From the earliest days of the country's oil & gas journey, NMDC Energy has been at the forefront creating a globally integrated energy ecosystem that is today among the world's most advanced.

Four Construction Yards

Artistry Unleashed at our Fabrication Yard

“

Our fabrication yards are a fusion of precision and excellence, harmonizing skilled manpower, cutting-edge technology, and robotics to breathe life into our projects with unparalleled quality.

1) Main Mussafah Fabrication Yard:

Area: 1,075,000 m²

Capabilities: Major structures (platforms, decks, pancakes and Modularization

Manpower: 15,000

2) ICAD-4 Yard:

Area: 555,000 m²

Capabilities: Pipe Coating and Modularization

Manpower: 350

3) ICAD-2 Modular Fabrication Yard:

Area: 190,000 m²

Capabilities: Modular Fabrication

Manpower: 3,000

❖ **Total UAE Yard(s) Area: 1,820,000 m²**

4) KSA Yard (Ras Al Khair):

Area: 400,000 m²

Capabilities: PDMs, Jackets, Offshore structures and Modularisation

Manpower: 5,000

Inaugurated

2025

Strategic Focus

We are committed to continually seeking avenues for growth and extending our reach.

Strategic Objectives

Improve Core Operations

Cherish current Markets

Strengthen Government, Client and Investor relationships

Enter New Markets

Commit to Sustainability

NT Energies Energy Transition

The JV is poised to bolster the company's financial outlook, particularly in light of the abundant market opportunities in the GCC, estimated to exceed AED 50 billion over the next five years.

Module Fabrication Expansion Fabrication Yard

Yard has been identified in Musaffah with an area of 220k m2 to focus on module fabrication

KSA Expansion

The establishment of NMDC Energy's new yard in KSA with an investment exceeding AED 200 million reflects a significant commitment to enhancing the company's capabilities, enabling it to handle a greater volume of projects and ultimately leading to increased revenues

SEA Expansion

NMDC Energy's strategic entry into the Southeast Asian (SEA) market through potential partnerships with a number of existing players heralds a new era, unlocking promising avenues for projects in that dynamic region and broadening the company's global footprint.

India Enhancing Capabilities

NMDC Energy (Formerly NPCC) is currently expanding the capabilities of its engineering office in India (NEL) to undertake small and medium-sized EPC projects, ensuring a diversified portfolio and guaranteeing additional revenue streams for the company.

Africa Expansion

NMDC Energy's strategic move to enter the African oil market signals a pivotal expansion, with the continent offering immense potential with total project values in the African market estimated to surpass more than AED 100 billion in the next five years

M&A Enhancing Capabilities

NMDC Energy's strategic plan for the acquisition of companies signifies enhancement of the company's capabilities, unlocking additional project capacity and paving the way for increased revenue

Decommissioning Enhancing Capabilities

NMDC Energy (Formerly NPCC) is planning to enter the Decommissioning Sector either through building its own inhouse capabilities or inorganically through acquisitions. Total expected global decommissioning expenditure out to 2050 is around USD 500bn of which USD 128 billion between 2022 and 2030

Onshore Expansion Upstream, Midstream & Downstream

Five ongoing onshore projects with a value of AED 25.1bn

Leading on Sustainability, Energy Transition, and HSE

Contributing to Energy Transition Across the UAE and the Broader MENA Region through Partnerships and Initiatives

NT Energies Energy Transition

NT Energies is a joint venture created by NMDC Energy and Technip Energies specialize in blue and green hydrogen production, decarbonization projects, advanced CO2 capture technologies, and a range of industrial initiatives.

Masdar Energy Transition

In 2022 (MOU) between NMDC and Masdar marks a strategic collaboration to explore the development of renewable energy projects, promising to significantly enhance the company's revenue through sustainable initiatives.

Offshore Wind Energy Transition

Recognizing the growing importance of renewable energy, NMDC took a strategic move into renewable energy project, whereby it diversified its operations to develop capabilities in the renewable projects

LNG Energy Transition

NMDC Energy executed and is contracted for a number of projects in the Gas sector, this includes EPC work for Ruwais LNG project and Taiwan subsea gas pipeline project

On site solar panels

We are setting up a pilot to install temporary solar panels on our off-grid project sites. These panels provide a renewable energy source, reducing reliance on diesel generators and minimizing greenhouse gas emissions during project execution.

Electrification

As part of our commitment to sustainability and reducing our environmental impact, we have initiated the electrification of our construction yard. This transition from traditional fuel-based power sources to renewable electricity aligns with our ESG goals.

Emission (GHG) Inventory

We have updated our emissions inventory to enhance the accuracy of our emissions assessment. These insights enable us to focus on minimizing emissions in our operations (Scope 1 and 2) as well as those of our suppliers (Scope 3).

IPLOCA Award

NMDC Energy was the winner of the recent 2024 IPLOCA Environmental Award for Blue Carbon Initiative sponsored by Shell. NMDC Energy planted 20,001 mangrove seedlings which can capture 246 tons of CO2 annually.
